\$30,284,840 under 1941. Included in the 1942 estimates is \$131,000,000 for the Public Roads Administration, as compared with \$140,990,000 for 1941. The net decrease of approximately \$10,000,000 is due to a reduction of \$15,000,000 for the elimination of grade crossings and an increase of \$5,000,000 for the Federal-aid highway system, partially to restore sums expended for the repair or reconstruction of highways and bridges on the Federal-aid highway system which have been damaged or destroyed by floods, hurricanes, earthquakes, or landslides, as authorized by section 3 of the act approved June 18, 1934 (48 Stat. 994). Also included in the 1942 estimates is \$10,869,700 for the Public Buildings Administration, a decrease of \$20,294,840 from 1941. The decrease is accounted for by reductions of \$14,997,540 for construction of public buildings outside the District of Columbia for which no amount is included, present funds being sufficient to meet existing contract obligations, and \$5,297,300 for the continuation of the construction, the acquisition of sites and the beginning of construction of public buildings in the District of Columbia. The following tabulation shows the amounts recommended for 1942 for projects in the District of Columbia and the 1941 appropriations therefor:

	Appropriations, 1941	Amount included in 1942 Budget
West central heating plant.....	\$1,500,000	\$2,400,000
General Accounting Office.....		5,000,000
Land for future construction.....	322,000	700,000
Annex buildings, Government Printing Office.....		200,000
Extension and remodeling, Department of Agriculture, Bureau of Economics Building.....		800,000
Site, State Department Annex Building.....		920,000
National Archives Building.....		849,700
Total.....	1,822,000	10,869,700

The limits of cost for the west central heating plant, the General Accounting Office, and the extension and remodeling, Department of Agriculture, Bureau of Economics Building are \$3,900,000, \$9,850,000, and \$1,600,000 respectively. The General Accounting Office Building is in lieu of the previous authorization which had a limit of cost of \$4,700,000 for the remodeling and addition of two wings to the old Pension Office, at present occupied by the General Accounting Office. An appropriation of \$2,000,000 was made in 1935 partially to finance this project.

Veterans' Administration, Public Works

The amount included for the fiscal year 1942 for hospital and domiciliary facilities is \$3,500,000. This estimate provides funds for a new facility in the Massachusetts-Rhode Island area; completion of work at Fort Howard, Md.; additional beds at Canandaigua, N. Y.; and such major reconditioning, replacements, and alterations as are necessary at existing facilities.

Department of Agriculture, Public Works

The only item in the Department of Agriculture appropriation estimates for public works is national forest roads and trails, \$9,955,500, an increase of \$955,500 over the 1941 appropriation. This estimate will leave an unappropriated balance of \$1,044,500 in the authorization for the fiscal year 1941, contained in the act of June 8, 1938, and will leave entirely unappropriated the 1942 authorization of \$10,000,000, provided in the act of September 5, 1940.

Department of Commerce, Public Works

The estimates for public works under the Department of Commerce for the fiscal year 1942 total \$34,100,000. Of this amount, \$600,000 is for the construction and equipment of a laboratory building for scientific research and for testing equipment, materials, and supplies at the National Bureau of Standards in the District of Columbia. The remaining amount of \$33,500,000, which is \$6,500,000 less than the amount provided for 1941, is for the completion of the program for the construction, improvement, and repair of not to exceed 250 public airports and other public landing areas, in the United States, its Territories and possessions, for national-defense purposes.

Department of the Interior, Public Works

The estimates for 1942 for public works under the Department of the Interior amount to \$89,986,950, an increase of \$5,566,900 over the 1941 appropriations.

For the construction of additional transmission lines and substations for the disposal of power generated at the Bonneville and Grand Coulee Dams, and for operation, maintenance, and marketing expense, \$12,958,500 is provided, which represents an increase of \$2,458,500 over the 1941 appropriations. Of the total estimate \$2,000,000 is to be held in reserve for the construction of transmission lines from the Grand Coulee Dam to such points as may be approved by the President to supply industries engaged in national-defense production. The estimate contains an increase of \$235,600 for operation and maintenance of new mileage of transmission lines and other facilities completed in 1941 or to be completed in 1942.

The amount recommended for the Bureau of Indian Affairs is \$4,953,450, a net decrease of \$948,850 from 1941 appropriations. There is a decrease of \$1,194,350 for the continuation of construction of irrigation systems on Indian reservations. The principal item of decrease is for the Colorado River project in Arizona, where funds are provided only for completing contract requirements with respect to the construction of the Head Gate Rock Dam and 2,000 feet of the main canal. For the construction or major repair of buildings and utilities there is an increase of \$245,500. Included under this item is \$895,000 to meet the contractual obligation authorized in 1941 for the replacement of the Indian sanatorium at Tacoma, Wash.

The estimates for the Bureau of Reclamation total \$62,800,000, or \$922,000 less than the total appropriation for 1941. The estimates contemplate an expenditure of \$9,495,000 from the Reclamation fund and \$53,305,000 from the general fund of the Treasury.

The net increase for the total program from the Reclamation fund is \$1,023,000. The amount recommended for expenditure from the Reclamation fund will permit orderly progress of construction on the several projects involved. An increase of \$1,000,000 is provided for the Colorado-Big Thompson project in Colorado, principally to permit continuous progress on the Continental Divide tunnel and to begin construction on the Granby Reservoir. Provision is also made for beginning construction on the Anderson Ranch Dam to serve the Arrowrock division of the Boise project in Idaho. There are other items of increase or decrease, depending upon the requirements of the respective projects.

The net decrease for all projects financed from the general fund of the Treasury is \$1,660,000. An increase of \$2,500,000 is provided for the practical completion of the Parker Dam power project, Arizona-California. There is an increase of \$1,400,000 for the Central Valley project

in California. These increases are offset by the omission of estimates for the Pine River project, Colorado, \$800,000, and the Colorado River project, Texas, \$5,500,000, which will be completed during the current year, a reduction of \$40,000 in the amount for continuing investigations with respect to the San Luis Valley project in Colorado, \$5,000 for administrative expenses, and a reduction of \$4,000,000 for the Grand Coulee Dam project in Washington. The estimate for the Grand Coulee Dam project contemplates the completion of the dam and all features within the reservoir area, but does not make any provision for going forward with the development of the pumping plant or irrigation facilities. The estimates also contemplate the use of \$3,500,000 for further development of water-conservation and utilization projects in the arid and semiarid States, \$500,000 for the commencement of construction of transmission lines for distribution of electricity to be produced at the Fort Peck project, Montana, and \$2,500,000 for beginning the construction of the Valley Gravity Canal and storage project to insure an adequate water supply to many farmers in Texas.

To expedite the development of additional power, \$5,000,000 is recommended for the Boulder Canyon project, an increase of \$1,000,000 over the 1941 appropriation. There is also an increase of \$500,000 for the All-American Canal, approximately \$2,000,000 being required to meet contract payments on this work during the fiscal year 1942.

The estimates for the National Park Service include \$3,000,000 for the construction of roads and trails, of which \$2,250,000 is required to meet contract obligations authorized in the Interior Department Appropriation Act for 1941; \$6,000,000 for the continuation of work on the Blue Ridge and Natchez Trace Parkways, of which \$4,500,000 is to meet contract obligations authorized by the 1941 Interior Appropriation Act, and not to exceed \$700,000 is for additional construction on the George Washington Memorial Parkway, and \$275,000 for the construction of physical improvements in areas under the jurisdiction of the National Park Service. These projects consist principally of improvements to sanitary facilities and utility services, mostly in the national parks.

Department of Justice, Public Works

The estimates for public works under the Department of Justice for the fiscal year 1942 total \$454,700, representing an increase of \$209,700 over 1941 appropriations.

The 1942 estimates include \$73,950 for construction and repair at the United States Penitentiary, McNeil Island, Wash., of which \$65,450 is for extension of existing facilities and \$8,500 for continuing the development of the island area; and \$380,750 for extension or improvement of existing facilities at other penal and correctional institutions.

War Department, Public Works

There is included a total of \$121,113,325 for public works of the nonmilitary activities of the War Department. No amount is carried under this head for military activities for 1942 as military construction is currently limited primarily and largely to temporary structures directly connected with the immediate national defense program.

The amount for nonmilitary activities consists of \$20,000,000 for the prosecution of such projects of improvement of rivers and harbors heretofore authorized by Congress as may be most desirable in the interests of commerce and navigation; \$70,000,000 for prosecuting

work of flood control on various rivers and waterways authorized under the Flood Control Act of June 22, 1936, as amended and supplemented by the Flood Control Acts of August 28, 1937, June 28, 1938, and August 11, 1939, including \$998,342 for transfer to and expenditure by the Department of Agriculture for continuing the making of preliminary examinations and surveys for run-off and water-flow retardation and soil-erosion prevention on the watersheds of flood-control projects; \$22,000,000 for continuing flood-control work on the Mississippi River and tributaries under the Mississippi River Flood Control Act of May 15, 1928, as amended and supplemented by the acts of June 15, 1936, and June 28, 1938; \$98,325 for completing the authorized flood-control project on the Sacramento River, Calif., in accordance with the provisions of the act of August 26, 1937; \$1,845,000 for completing the construction and installation of a hydroelectric power plant at Fort Peck Dam, Mont.; and \$7,170,000 for continuing the construction of a power house and installation of 10 hydroelectric generating units at Bonneville Dam on the Columbia River, Ore.

The amount of the 1942 estimate for public works of a nonmilitary character under the War Department is \$18,630,675 less than the amount appropriated for this purpose in 1941 and consists of decreases of \$9,047,000 for river and harbor improvements; \$55,000 for general flood control; \$8,000,000 for Mississippi River flood control; \$1,143,675 for Sacramento River flood control; \$155,000 for hydroelectric plant at Fort Peck Dam, Mont.; and \$230,000 for hydroelectric plant at Bonneville Dam, Columbia River, Ore.

Department of State, Public Works

The estimates of appropriations under the Department of State for the fiscal year 1942 amount to \$1,947,400, a decrease of \$112,600 from the 1941 appropriations. Nonrecurring projects in 1941 amount to \$962,029, thus providing a gross increase for 1942 of \$849,429.

The 1942 estimate provides \$500,000 for public buildings for diplomatic and consular establishments abroad, an increase of \$200,000. The principal building projects to be constructed in 1942 will be located in Latin America and Australia. The estimate provides \$950,000 for continuing the lower Rio Grande flood-control project, the same amount that was appropriated for 1941. An estimate of \$490,900 is included for completion of the control and canalization of the Rio Grande. The estimate provides \$6,500 for the construction of a fence on the Mexican border around Cordova Island at El Paso, Tex., as an aid to the enforcement of the alien and smuggling laws.

DEPARTMENT OF AGRICULTURE

Under Reorganization Plan III, approved by the President pursuant to the Reorganization Act of 1939, the Division of Marketing and Marketing Agreements of the Agricultural Adjustment Administration and the Federal Surplus Commodities Corporation were consolidated, effective June 30, 1940, into an agency designated as the Surplus Marketing Administration. Under Reorganization Plan IV, also effective June 30, 1940, those functions of the Soil Conservation Service in the Department of Agriculture dealing with soil and moisture conservation operations conducted on lands under the jurisdiction of the Department of the Interior were transferred to the latter Department.

Excluding the item in the General Public Works Program and the trust accounts, the Budget estimates for the

Department of Agriculture as now constituted provide for direct appropriations in 1942 totaling \$992,631,309, as against comparable direct appropriations in 1941 of \$1,135,697,019, a decrease for 1942 of \$143,065,710. Reappropriations of unobligated balances under various appropriations and of collections of principal and interest on Farm Credit Administration loans are contemplated for 1942 to the extent of \$29,023,684 as against similar reappropriations for 1941 of \$72,290,528, a decrease of \$43,266,844.

The total availability for 1942 (direct appropriations plus reappropriations and collections of principal and interest) is, therefore, \$186,259,866 less than in 1941, the principal items of increase and decrease being accounted for as follows:

In the Office of the Secretary there is a net reduction of \$117,662. This amount consists of reductions of \$149,472 due to the elimination of the appropriation for rent of buildings in the District of Columbia, which amount has been transferred to the Federal Works Agency in accordance with the objective of centralizing in that agency the functions of building rentals in the District, together with custodial and maintenance costs, \$5,000 representing reimbursement for certain guard services heretofore paid from the appropriation "Salaries, Office of the Secretary," and \$4,190 resulting from the elimination of personal services no longer required by virtue of the enactment of the Transportation Act of 1940. These decreases are offset, in part, by increases of \$8,000 for additional personnel to enable the Secretary to delegate certain regulatory functions as provided by the act of April 4, 1940 (Public, No. 446), and \$32,600 involving transfers from other units of the Department. Corresponding reductions in the same aggregate amount have been made in the appropriations of those units.

The increase of \$3,180 for the Office of the Solicitor is wholly accounted for by a transfer of that amount from the Bureau of Animal Industry, with a corresponding reduction in the appropriation of the latter agency.

The special research fund has been decreased \$200,000, with the insertion in the language of a proviso that none of this reduction be applied to the special research laboratories operated in cooperation with the States.

The increase of \$70,000 for salaries and expenses, Extension Service, is for additional personnel to provide for strengthening the relationships between the office of the director and those of the State directors of extension work. In addition, an increase of \$38,000 is provided under the heading of Federal payments for agricultural extension work for the employment of additional extension workers in Puerto Rico, making a total increase of \$108,000 for the Extension Service for 1942 over 1941.

The Bureau of Agricultural Economics has been designated by the Secretary as the over-all planning, program development, and agricultural economic research agency of the Department. The net increase of \$2,256,100 shown for 1942 for this bureau over the regular appropriation of \$863,900 for 1941 is entirely accounted for by transfers between appropriations. The sum of \$2,262,895 represents total transfers of that amount from units of the Department from whose appropriations allotments in the same amount were made in 1941 for aiding in formulating programs for authorized activities. Offsetting reductions of the same amount have been made in the estimates for those units involved in this transfer of funds. The difference, \$6,795, has been transferred to the Federal Works Agency in connection with the objective of centralizing in that agency the functions of building rentals in the District of Columbia.

In the estimate for the Office of Foreign Agricultural Relations there is an increase of \$25,320 for additional personnel and other expenses to meet the need for additional services resulting from the impact of world economic conditions upon American agriculture.

The estimates provide an increase of \$1,507,232 in the direct appropriations of the Bureau of Animal Industry. Unobligated balances to be reappropriated for 1942 are estimated to be \$750,000, a decrease of \$3,250,000. Total availability, therefore, is \$1,742,768 below 1941. The estimate of direct appropriation for eradicating tuberculosis and Bang's disease is increased by \$1,543,140, necessitated in part by the reduction in the amount available for reappropriation from \$4,000,000 in 1941 to \$750,000 in 1942; that for eradicating cattle ticks is reduced \$25,000; that for hog cholera control, \$7,725; and that for meat inspection, \$3,180, which sum has been transferred to the Office of the Solicitor.

For the Bureau of Plant Industry the estimates show a decrease of \$510,000, accounted for almost entirely by the elimination of an item of \$500,000 provided during 1941 for a 3-year program for investigations of rubber plants and methods of rubber production in the Western Hemisphere.

Under the Forest Service, there is a net increase of \$579,000 in direct appropriations. This is accounted for by increases of \$300,000 for forest-fire cooperation with the States; \$1,000,000 of direct appropriation for the acquisition of additional forest land; and \$245,000 for the acquisition of land by reappropriation of national forest receipts in certain States as provided by specific legislation. These increases are partially offset by decreases due to transfers of \$22,000 and \$644,000, respectively, to the Bureau of Agricultural Economics and to the proposed new item for "white pine blister rust control," and a decrease of \$300,000 because of nonrecurrence of the 1941 item for completion of the Federal undertaking with respect to the New England hurricane damage. Considering an unobligated balance of \$869,236 which is also available in 1941 plus the \$300,000 appropriated directly for the New England hurricane item, the reduction for 1942 on that item is actually \$1,169,236.

For the Bureau of Agricultural Chemistry and Engineering the estimates show a net decrease of \$43,011 in 1942. Increases of \$17,481 for agricultural engineering investigations are more than offset by decreases of \$36,942, due to the transfer of certain agricultural chemical investigations to the new regional laboratories at Albany, Calif., and New Orleans, La., which work will be financed from the funds specifically provided for operation of the laboratories, and \$20,050 for industrial utilization of farm products and byproducts because of the fact that this activity will be similarly transferred to the regional laboratory at Peoria, Ill.

The estimates of the Bureau of Entomology and Plant Quarantine show a net decrease of \$60,985. This decrease consists of the elimination of the item of \$13,485 for eradication of the citrus canker, no longer considered to be a serious menace, and a decrease of \$100,000 under the item for Dutch elm disease eradication because of the progress being made in the control of this disease. This total decrease is partially offset by small increases, totaling \$52,500, for barberry eradication, control of the Mexican fruitfly, maintenance and operation of a new laboratory at Beltsville, Md., and for increased personnel and operating expenses at the new quarantine station at Hoboken, N. J. A transfer of \$400,000 heretofore provided under this Bureau for blister rust control has been

made to the proposed new item for "white pine blister rust control."

The act of April 26, 1940 (Public, No. 486), authorizes the Secretary of Agriculture, in cooperation with other agencies, to use such sums as are made available for forest protection against white pine blister rust. To carry out the provisions of this act, a new consolidated appropriation item is included in the Budget which provides funds for its execution as follows: \$215,000 for the Department of the Interior, an entirely new fund, and \$1,194,000 for the Department of Agriculture, which represents an increase of \$365,000 over the total of \$1,044,000 available in 1941 from appropriations made for the Forest Service and the Bureau of Entomology and Plant Quarantine.

The estimates include an increase of \$37,802 for the Agricultural Marketing Service. Of this increase, \$25,000 is for strengthening the activities under the Grain Standards Act in connection with soybean inspection, and \$4,000 represents an item for weather and crop relationship research, carried as a separate item in 1941, but merged with crop and livestock estimates in 1942.

There is an increase of \$10,000 for the Bureau of Home Economics which will provide, in part, for the maintenance and operation of a laboratory at the Beltsville Research Center.

For the Commodity Exchange Administration there is an increase of \$11,000 for the enforcement of the Commodity Exchange Act, as amended by the act of October 9, 1940.

In the estimate for the Soil Conservation Service there is a net increase of \$1,751,144. This amount consists of an increase of \$3,839,000 for cooperation with soil conservation districts, which increase is partially offset by decreases of \$1,000,000 in demonstration projects, \$1,000,000 in technical cooperation with other agencies, \$11,400 transferred to the Office of the Secretary, \$75,000 transferred to the Bureau of Agricultural Economics, and \$1,456 for services no longer required by reason of the enactment of the Transportation Act of 1940.

Under the appropriation for "Conservation and use of agricultural land resources, Department of Agriculture," for carrying out the provisions of the Soil Conservation and Domestic Allotment Act of February 29, 1936, and the Agricultural Adjustment Act of 1938, there is an apparent net increase of \$60,364,480. Taking into account, however, an unobligated balance of \$23,400,000 available to be carried forward from 1941 into 1942, the actual net increase in 1942 funds is \$36,964,480. This increase is intended to restore the agricultural adjustment program approximately to the \$500,000,000 level contemplated by the Soil Conservation and Domestic Allotment Act, including \$4,000,000 for the operation of the four regional laboratories authorized by section 202 (d) of the Agricultural Adjustment Act of 1938, which laboratories will be established on a full-time basis beginning with the fiscal year 1942. Provision is also made for transfers of \$600,000 and \$35,520, respectively, to the Bureau of Agricultural Economics and the Federal Works Agency.

Provision is made in the 1942 Budget for an appropriation of \$49,866,160 and for authority to incur additional obligations not exceeding \$162,000,000 payable in the fiscal year 1943, for parity payments in connection with 1942 crops. It is also proposed that obligation of both the direct appropriation and the contract authorization be made subject to advance Presidential approval of parity-payment rates. The amount of the direct appropriation, \$49,866,160, excludes \$125,000 transferred to the Bureau of Agricultural Economics, and \$8,840 to the Federal Works Agency.

The amount recommended for administrative expenses of the Commodity Credit Corporation for 1942 is \$500,000 less than the funds made available in 1941, but is \$207,502 in excess of the actual obligations incurred in 1940. The increase over 1940 is provided to enable the Corporation to acquire, store, and dispose of the increasing amount of commodities in which it is interested. The funds for administrative expenses are not appropriated from the Treasury but are made available from the funds of the Corporation.

The Surplus Marketing Administration, created under Reorganization Plan III, approved by the President pursuant to the Reorganization Act of 1939, is responsible for the disposal of surplus agricultural commodities. Its funds are made available from two sources: (1) A regular appropriation carried in the Department of Agriculture Appropriation Act, and (2) a permanent appropriation authorized by section 32, as amended, of the act entitled "An act to amend the Agricultural Adjustment Act, and for other purposes," approved August 24, 1935, which authorizes the use of an amount equal to 30 percent of customs receipts for this purpose. The estimate for 1942 contemplates an appropriation of \$100,000,000 under each of the above items, or a total of \$200,000,000. Compared with a total of \$235,924,611 provided for 1941 for surplus removal, the 1942 Budget contemplates a decrease of \$35,924,611.

The 1942 estimate for carrying out the provisions of the Sugar Act of 1937 proposes a direct appropriation of \$47,923,960, without provision for the use of unobligated balances of prior year appropriations. Compared with a total availability of \$47,975,000 for 1941, which sum includes a reappropriation of 1940 balances to the extent of \$1,300,000, there is an actual decrease of \$51,040 accounted for by transfers of \$50,000 to the Bureau of Agricultural Economics, and \$1,040 to the Federal Works Agency.

The total availability for 1941 for administration of the Federal Crop Insurance Act is \$5,523,200, comprised of a direct appropriation of \$5,423,200 and a reappropriation of 1940 unobligated balances in the sum of \$100,000. For 1942 the estimate provides for a direct appropriation of \$5,734,488 without provision for the use of prior year balances. The net increase in total availability for 1942 as against 1941 is, therefore, \$211,288, made up of \$100,000 for storage costs and other handling charges, \$200,000 for Agricultural Adjustment Administration expenses of State and county agricultural committees. This is offset in part by transfers of \$76,800 to the Bureau of Agricultural Economics and \$11,912 to the Federal Works Agency.

The Second Deficiency Appropriation Act, 1940, provided \$20,000,000 as a part of the Federal investment in the stock of the Federal Crop Insurance Corporation. Provision for an additional subscription is not necessary for the fiscal year 1942, resulting in a decrease of that amount.

For the farm-tenancy loan program authorized by title I of the Bankhead-Jones Act, there was authorized for loans in 1941 the sum of \$50,000,000 to be obtained from the Reconstruction Finance Corporation. The 1942 Budget also provides for \$50,000,000 to be obtained from the same source.

For liquidation and management of resettlement projects, Farm Security Administration, the estimates provide \$738,689, a decrease of \$761,250 below the 1941 appropriation. This decrease will be almost entirely offset by charging an additional amount of this expense to the trust account for payments in lieu of taxes and for opera-

tion and maintenance of resettlement projects, Farm Security Administration.

The total 1941 availability for land utilization and retirement of submarginal land under title III of the Bankhead-Jones Farm Tenant Act is \$3,024,595, consisting of a direct appropriation of \$2,099,675 and a reappropriation of \$924,920 remaining unobligated from the 1940 appropriation for this program. The 1942 estimates provide for a direct appropriation of \$2,278,239, plus reappropriation of any balance remaining unobligated at the close of 1941. Thus there is a facial increase of \$178,564 over 1941, but actually a decrease of \$746,356 on the basis of available funds, made up of transfers of \$737,000 and \$9,356, respectively, to the Bureau of Agricultural Economics and the Federal Works Agency.

Section 2 (a) of the Emergency Relief Appropriation Act, fiscal year 1941, made available the sum of \$187,992,-084 for rural rehabilitation, of which \$62,992,084 was provided by direct appropriation for general purposes of the program, and \$125,000,000 by the Reconstruction Finance Corporation for rehabilitation loans. The 1942 estimates provide for a direct appropriation of \$66,000,000 for general purposes, together with the unobligated balance under section 2 (a) of the Emergency Relief Appropriation Act, fiscal year 1941, and in addition, \$100,000,000 to be obtained from the Reconstruction Finance Corporation for rehabilitation loans. The amount available for loans has been decreased by \$25,000,000 in the anticipation that improved economic conditions will reduce somewhat the number of applications for this type of Government assistance. The estimate of \$66,000,-000 for direct appropriation represents a net increase of \$3,007,916 to enable Farm Security Administration to service properly the accumulated number and amount of outstanding loans.

The act of August 28, 1937, declared it to be the policy of Congress to assist in providing facilities for water storage and utilization in the arid and semiarid areas of the United States and authorized the appropriation for this purpose of such sums as Congress might, from time to time, determine to be necessary. The Department of Agriculture Appropriation Acts for 1940 and 1941 each provided \$500,000 for this purpose, and the 1942 estimates include a like amount. The regular annual appropriations have in the past been used largely for formulation and maintenance of a program of projects as required by the basic act. During 1941 and 1942 approximately \$250,000 of the funds will be used for project loans. These project loans will be supplemented from funds made available for rural rehabilitation. The estimate of the additional amounts thus made available in 1941 is \$3,000,000 and in 1942, \$2,350,000.

The estimate of \$3,946,000 for salaries and expenses for the Rural Electrification Administration for the fiscal year 1942 is an increase of \$272,575 over the appropriation for the fiscal year 1941. The amount included gives consideration to the accumulating workload of the Administration in auditing, supervising the operation, and assisting in the load building of completed projects.

The estimate of \$40,000,000 for loans is the annual amount authorized by Congress under the Rural Electrification Act. In 1941 \$100,000,000 was made available for this purpose as a loan by the Reconstruction Finance Corporation, and in 1942 the loan funds are to be made available from the same source.

The estimate of \$3,810,000 for the Farm Credit Administration for salaries and expenses for the fiscal year 1942 is \$44,290 more than the 1941 appropriation. The gross amount, including reimbursements and reappropriations

that will be available for 1942, is \$9,039,341, or an availability decrease of \$387,625 from 1941. The amount included for 1942 gives consideration to the decreased volume of loans being made under the supervision of the Farm Credit Administration, but provides for an increase in the cost of supervising credit unions and for an additional amount of cooperative marketing studies.

As in 1941, no appropriation estimate has been included in the 1942 Budget for crop loans. Such loans for 1942 are estimated by the Farm Credit Administration at \$23,000,000. Collections of interest and principal of outstanding loans, which are made available for this purpose, together with the unexpended balances of such collections from 1941, will be sufficient to furnish the amount estimated for loans in 1942.

The estimate of \$8,350,000 for the Federal Farm Mortgage Corporation for the fiscal year 1942 represents a decrease of \$350,000 under the amount made available in 1941, but is \$307,542 more than actual expenditures during the fiscal year 1940. The 1942 estimate gives consideration to the increasing delinquency of the loans of the Corporation and the acquisition, management, and disposal of real estate acquired as a result of foreclosures. The administrative expenses of the Corporation are not appropriated from the funds of the Treasury but are made available from the funds of the Corporation.

Under the classification "Trust accounts" there appears a decrease of \$250,000 in the item of payments in lieu of taxes and for operation and maintenance of resettlement projects, Farm Security Administration. Pursuant to section 3 of the act of June 29, 1936 (40 U. S. C. 431-434), receipts derived from resettlement projects are covered into this trust account and are available to the Farm Security Administration for the purposes indicated above. It is estimated that the receipts to be covered into this fund in 1942 will be \$250,000 less than those of the current year. In the item of State rural rehabilitation corporation funds there is a decrease of \$225,000. This fund derives from agreements with individual rural rehabilitation corporation directorates transferring to the Farm Security Administration all corporate assets and delegating to the Administrator complete and exclusive powers of management of corporation properties. All collections plus unencumbered balances are available for all of the purposes of the Corporation, and the \$1,925,000 included in the 1942 Budget is based upon the best available estimate of 1942 collections.

DEPARTMENT OF COMMERCE

Under Reorganization Plan III, pursuant to the Reorganization Act of 1939, the Administrator of the Civil Aeronautics Authority, effective June 30, 1940, was made chief administrative officer of the Authority with respect to all functions other than those relating to economic regulation and certain other activities primarily of a rule-making and adjudicative character which were entrusted to the five-member Board of the Authority. Under Reorganization Plan IV the Civil Aeronautics Authority, the Office of the Administrator of Civil Aeronautics, and the functions of the Air Safety Board were transferred, effective June 30, 1940, to the Department of Commerce, and the Air Safety Board was abolished and its functions consolidated with the functions of the Civil Aeronautics Authority, thereafter known as the Civil Aeronautics Board within, but independent of, the Department in the performance of its rule-making, adjudicative, and investigative functions. Also, under Reorganization Plan IV, the Weather Bureau was transferred, effective June 30,

ESTIMATES OF APPROPRIATIONS

OFFICE OF THE SECRETARY

SALARIES

Salaries, Office of Secretary of Agriculture—

For the Secretary of Agriculture, Under Secretary of Agriculture, Assistant Secretary, and for other personal services in the District of Columbia, and elsewhere, **[\$597,620] \$609,424**: *Provided*, That in expending appropriations or portions of appropriations contained in this Act for the payment of personal services in the District of Columbia in accordance with the Classification Act of 1923, as amended, with the exception of the Assistant Secretary, the average of the salaries of the total number of persons under any grade in any bureau, office, or other appropriation unit shall not at any time exceed the average of the compensation rates specified for the grade by such Act as amended and in grades in which only one position is allocated the salary of such position shall not exceed the average of the compensation rates for the grade, except that in unusually meritorious cases of one position in a grade advances may be made to rates higher than the average of the compensation rates of the grade but not more often than once in any fiscal year and then only to the next higher rate: *Provided further*, That this restriction shall not apply (1) to grades 1, 2, 3, and 4 of the clerical-mechanical service, or (2) to require the reduction in salary of any person whose compensation was fixed as of July 1, 1924, in accordance with the rules of section 6 of such Act, (3) to require the reduction in salary of any person who is transferred from one position to another position in the same or different grade, in the same or different bureau, office, or other appropriation unit, (4) to prevent the payment of a salary under any grade at a rate higher than the maximum rate of the grade when such higher rate is permitted by the Classification Act of 1923, as amended, and is specifically authorized by other law, or (5) to reduce the compensation of any person in a grade in which only one position is allocated: *Provided further*, That the Secretary of Agriculture is authorized to contract for stenographic reporting services, and the appropriations made in this Act shall be available for such purposes: *Provided further*, That the Secretary of Agriculture is authorized to expend from appropriations available for the purchase of lands not to exceed \$1 for each option to purchase any particular tract or tracts of land: *Provided further*, That not to exceed \$25,000 of the appro-

priations available for salaries and expenses of officers and employees of the Department of Agriculture permanently stationed in foreign countries may be used for payment of allowances for living quarters, including heat, fuel, and light, as authorized by the Act approved June 26, 1930 (5 U. S. C. 118a): *Provided further*, That with the approval of the Secretary of Agriculture employees of the Department of Agriculture stationed abroad may enter into leases for official quarters, for periods not exceeding one year, and may pay rent, telephone, subscriptions to publications, and other charges incident to the conduct of their offices and the discharge of their duties, in advance, in any foreign country where custom or practice requires payment in advance: *Provided further*, That no part of the funds appropriated by this Act shall be used for the payment of any officer or employee of the Department of Agriculture who, as such officer or employee, or on behalf of the Department or any division, commission, or bureau thereof, issues, or causes to be issued, any prediction, oral or written, or forecast with respect to future prices of cotton or the trend of same: *Provided further*, That no part of the funds appropriated by this Act shall be used for laboratory investigations to determine the possibly harmful effects on human beings of spray insecticides on fruits and vegetables (5 U. S. C. 511-517 (secs. 511-512, establishing Department of Agriculture, apply to all appropriation items of the Department which are not based upon specific legislative authority either incorporated in the language of the item or cited immediately thereunder), 520a; 54 Stat. 81-82, 532-533).

MISCELLANEOUS EXPENSES, DEPARTMENT OF AGRICULTURE

Miscellaneous Expenses, Department of Agriculture—

For stationery, supplies, materials, and equipment, freight, express, and drayage charges, advertising and press clippings, communication service, postage, washing towels, repairs, and altera-

tions; for the maintenance, repair, and operation of one motorcycle and not to exceed three motor-propelled passenger-carrying vehicles (including one for the Secretary of Agriculture, one for general utility needs of the entire Department, and one for the Forest Service) and purchase of one motor-propelled passenger-carrying vehicle at not to exceed \$1,800, including the exchange value of one such vehicle, for official purposes only; for official travel expenses, including examination of estimates for appropriations in the field for any bureau, office, or service of the Department; and for other miscellaneous supplies and expenses not otherwise provided for and necessary for the practical and efficient work of the Department, which are authorized by such officer as the Secretary may designate, **\$105,000** \$99,341: *Provided*, That this appropriation shall be available for the payment of salaries of employees engaged in the maintenance, repair, and operation of motor-transport vehicles, and that this appropriation shall be reimbursed from the appropriation made for any bureau or office for which such service is performed, in accordance with the provisions of the Act of May 11, 1922 (5 U. S. C. 543): *Provided further*, That the Secretary of Agriculture, during the fiscal year for which this appropriation is made, may maintain stocks of stationery, supplies, equipment, and miscellaneous materials sufficient to meet, in whole or in part, requirements of the bureaus and offices of the Department in the city of Washington and elsewhere, but not to exceed in the aggregate \$200,000 in value at the close of the fiscal year, and the appropriations of such bureaus, offices, and agencies available for the purchase of stationery, supplies, equipment, and miscellaneous materials shall be available to reimburse the appropriation for miscellaneous expenses current at the time supplies are allotted, assigned, or issued, or when payment is received; for transfer for the purchase of inventory; and for transfer pursuant to the provisions of section 601 of the Act approved June 30, 1932 (31 U. S. C. 686): *Provided further*, That the appropriations made hereunder shall be available for the payment of salaries and expenses for purchasing, storing, handling, packing, or shipping supplies and blank forms, and there shall be charged proportionately as a part of the cost of supplies issued an amount to cover such salaries and expenses, and in the case of blank forms and supplies not purchased from this appropriation an amount to cover such salaries and expenses shall be charged proportionately to the proper appropriation: *Provided further*, That the facilities of the central storehouse of the Department shall to the fullest extent practicable be used to make unnecessary the maintenance of separate bureau storehouse activities in the Department: *Provided further*, That a separate schedule of expenditures, transfers of funds, or other transactions hereunder shall be included in the annual Budget: *Provided further*, That, except to provide materials required in or incident to research or experimental work where no suitable domestic product is available, no part of the funds appropriated by this Act shall be expended in the purchase of twine manufactured from commodities or materials produced outside of the United States (5 U. S. C. 542; 54 Stat. 533-534).

SPECIAL RESEARCH FUND, DEPARTMENT OF AGRICULTURE

Special Research Fund, Department of Agriculture—

For enabling the Secretary of Agriculture to carry into effect the provisions of an Act entitled "An Act to provide for research into basic laws and principles relating to agriculture and to provide for the further development of cooperative agricultural extension work and the more complete endowment and support of land-grant colleges," approved June 29, 1935 (7 U. S. C. 427, 427b, 427c, 427f); for administration of the provisions of section 5 of the said Act, and for special research work, including the planning, programming, coordination, and printing the results of such research, to be conducted by such agencies of the Department of Agriculture as the Secretary of Agriculture may designate or establish, and to which he may make allotments from this fund, including the employment of persons and means in the District of Columbia and elsewhere, and the purchase, maintenance, repair, and operation of motor-propelled and horse-drawn passenger-carrying vehicles necessary in the conduct of field work outside the District of Columbia, [\$1,400,000] \$1,200,000, of which amount \$700,000 shall be available for the maintenance and operation of research laboratories and facilities in the major agricultural regions provided for by section 4 of said Act (54 Stat. 537).

Cooperative Agricultural Extension Work—

For the purpose of paying the expenses of cooperative agricultural extension work and the necessary printing and distributing of information in connection with same, the Act of May 8, 1914 (7 U. S. C. 341-348), permanently appropriated \$480,000 for each year, \$10,000 of which is paid annually to each State which has by action of its legislature assented to the provisions of the Act. It also appropriated an additional sum of \$600,000 for the fiscal year following that in which the foregoing appropriation first became available, and for each year thereafter for seven a sum exceeding by \$500,000 the sum appropriated for each preceding year, and for each year thereafter there is permanently appropriated the sum of \$4,100,000 in addition to the sum of \$480,000. The additional

sums are allotted annually to each State by the Secretary of Agriculture and paid in the proportion which the rural population of each State bears to the rural population of all the States as determined by the next preceding Federal census, but no payment out of the additional appropriations can be made in any year to any State until an equal sum has been appropriated for that year by the legislature of such State, or provided by State, county, college, local authority, or individual contributions from within the State, for the maintenance of cooperative agricultural extension work. On May 16, 1928 (7 U. S. C. 386-386b), this appropriation was amended to include a permanent allotment to the Territory of Hawaii of \$10,000 plus an additional sum of \$12,935.43, subject to the same terms and conditions as the original act. The permanent annual appropriation was thereby increased to \$4,602,935.43. Under the 1930 census the amount of money available to Hawaii increased by \$3,160, thereby automatically raising the total amount available under the original Smith-Lever Act by this amount. The Act of March 4, 1931 (7 U. S. C. 386d-386f), provides that the Smith-Lever Act and Acts supplementary thereto be increased without diminishing the amount now received by any State or other Territory, to carry out the provisions of this Act in the Territory of Puerto Rico and specifies that the appropriation for 1933 and subsequent years shall be \$50,000, this amount to be increased by \$10,000 annually, or such part thereof as may be necessary, until the total to which Puerto Rico is entitled under the provisions of this Act is reached. The maximum for Puerto Rico (\$95,069) was reached during the fiscal year 1938, bringing the total permanent annual appropriation to \$4,701,165 (7 U. S. C. 341-348).

Estimate 1942, **\$4,701,165** Appropriated 1941, **\$4,701,165**

ERADICATION OF FOOT-AND-MOUTH AND OTHER CONTAGIOUS DISEASES OF ANIMALS

Eradication of Foot-and-Mouth and Other Contagious Diseases of Animals—

Eradication of European Fowl Pest and Similar Diseases in Poultry—

In case of an emergency arising out of the existence of foot-and-mouth disease, rinderpest, contagious pleuropneumonia, or other contagious or infectious disease of animals, which, in the opinion of the Secretary of Agriculture, threatens the livestock industry of the country, he may expend in the city of Washington or elsewhere any unexpended balances of appropriations heretofore made for this purpose in the arrest and eradication of any such disease, including the payment of claims growing out of past and future purchases and destruction, in cooperation with the States, of animals affected by or exposed to, or of materials contaminated by or exposed to, any such disease, wherever found and irrespective of ownership, under like or substantially similar circumstances, when such owner has complied with all lawful quarantine regulations: *Provided*, That the payment for animals hereafter purchased may be made on appraisement based on the meat, dairy, or breeding value, but in case of appraisement based on breeding value no appraisement of any animal shall exceed three times its meat or dairy value, and, except in case of an extraordinary emergency, to be determined by the Secretary of Agriculture, the payment by the United States Government for any animals shall not exceed one-half of any such appraisements: *Provided further*, That the sum of \$5,000 of the unexpended balance of the appropriation of \$3,500,000 contained in the Second Deficiency Appropriation Act, fiscal year 1924, approved December 5, 1924, for the eradication of the foot-and-mouth disease and other contagious or infectious diseases of animals, is hereby made available during the fiscal year for which appropriations are herein made to enable the Secretary of Agriculture to control and eradicate the European fowl pest and similar diseases in poultry (21 U. S. C. 129; 54 Stat. 542).

【Mycology and disease survey: For mycological collections and the maintenance of a plant-disease survey, \$45,818】 (54 Stat. 544).

NOTE.—Appropriation under above title transferred to and consolidated under "Plant exploration, introduction, and surveys."

【Nematology: For crop technological investigations, including the study of plant-infesting nematodes, \$48,961】 (54 Stat. 544).

NOTE.—Appropriation under above title transferred to and consolidated under "Plant exploration, introduction, and surveys."

Plant [exploration and introduction] exploration, introduction, and surveys: For investigations in seed and plant introduction, including the study, collection, purchase, testing, propagation, and distribution of rare and valuable seeds, bulbs, trees, shrubs, vines, cuttings, and plants from foreign countries and from our possessions, and also wild native plants, for experiments with reference to their introduction and cultivation in this country, [and for investigation of their diseases, \$224,533] for plant-disease investigations, including nematology, and for plant and plant-disease collections and surveys, \$350,947 (54 Stat. 544).

Estimate 1942, \$350,947

Appropriated 1941, * \$350,947

* Includes appropriations transferred to and consolidated under the above title as follows: "Botany," \$31,635; "Mycology and disease survey," \$45,818; and "Nematology," \$48,961.

For the employment of persons and means in the District of Columbia and elsewhere to enable the Secretary of Agriculture to experiment and to make and continue investigations and report on forestry, national forests, forest fires, and lumbering, but no part of this appropriation shall be used for any experiment or test made outside the jurisdiction of the United States; to advise the owners of woodlands as to the proper care of the same; to investigate and test American timber and timber trees and their uses, and methods for the preservative treatment of timber; to seek, through investigations and the planting of native and foreign species, suitable trees for the treeless regions; to erect necessary buildings: *Provided*, That the cost of any building purchased, erected, or as improved, exclusive of the cost of constructing a water-supply or sanitary system and of connecting the same with any such building, and exclusive of the cost of any tower upon which a lookout house may be erected, shall not exceed \$7,500, with the exception that any building erected, purchased, or acquired, the cost of which was \$7,500 or more, may be improved out of the appropriations made under this Act for the Forest Service by an amount not to exceed 2 per centum of the cost of such building as certified by the Secretary of Agriculture; to protect, administer, and improve the national forests, including tree planting and other measures to prevent erosion, drift, surface wash, soil waste, and the formation of floods, and to conserve water and including the payment of rewards under regulations of the Secretary of Agriculture for information leading to the arrest and conviction for violation of the laws and regulations relating to fires in or near national forests, or for the unlawful taking of, or injury to, Government property; to ascertain the natural conditions upon and utilize the national forests, to transport and care for fish and game supplied to stock the national forests or the waters therein; to collate, digest, report, and illustrate the results of experiments and investigations made by the Forest Service; to purchase lawbooks, reference and technical books, and technical journals for officers of the Forest Service stationed outside of Washington, and for medical supplies and services and other assistance necessary for the immediate relief of artisans, laborers, and other employees engaged in any hazardous work under the Forest Service: *Provided further*, That the appropriations for the work of the Forest Service shall be available for meeting the expenses of warehouse maintenance and the procurement, care, and handling of supplies, equipment, and materials stored therein for distribution to projects under the supervision of the Forest Service and for sale and distribution to other Government activities and to State and private agencies who cooperate with the Forest Service in fire control under terms of written cooperative agreements, the cost of such supplies, equipment, and materials, including the cost of supervision, transportation, warehousing, and handling, to be reimbursed to appropriations current at the time additional supplies and materials are procured for warehouse stocks: *Provided further*, That the [Forest Service may rent equipment to other Federal agencies at rates sufficient to reimburse the appropriations of the Forest Service that would otherwise be chargeable with the cost of the repair, maintenance, and depreciation of such equipment] *appropriations for the work of the Forest Service available for the operation, repair, maintenance and replacement of motor and other equipment may be reimbursed for use of such equipment on projects of the Forest Service chargeable to other appropriations, or on work of other Federal agencies, when requested by such agencies, reimbursement to be made from appropriations applicable to the work on which used at rental rates fixed by the Chief Forester based on the actual or estimated cost of operation, repair, maintenance, depreciation and equipment management control, and credited to appropriations currently available at the time adjustment is effected: Provided further, That the Forest Service may rent equipment for fire control purposes to State, county, private, or other non-Federal agencies cooperating with the Forest Service in fire control under the terms of written cooperative agreements, the amount collected for such rental to be credited to appropriations currently available at the time payment is received as follows (5 U. S. C. 511, 512—establishing the Department of Agriculture, 524—establishing Bureau of Forestry (the foregoing citations apply to all appropriation items under the Service which are not based upon specific legislative authority either incorporated in the language of the item or cited immediately thereunder); 16 U. S. C. 471-532; 31 U. S. C. 534; 36 Stat. 561; 39 Stat. 218; 54 Stat. 545-546):*

General administrative expenses: For necessary expenses for general administrative purposes, including the salary of the Chief Forester, for the necessary expenses of the National Forest Reserva-

tion Commission as authorized by section 14 of the Act of March 1, 1911 (16 U. S. C. 514), and for other personal services in the District of Columbia, [\$600,000] \$598,520 (54 Stat. 546).

National forest protection and management: For the administration, protection, use, maintenance, improvement, and development of the national forests, including the establishment and maintenance of forest tree nurseries, including the procurement of tree seed and nursery stock by purchase, production, or otherwise, seeding and tree planting and the care of plantations and young growth; the maintenance and operation of aerial fire control by contract or otherwise; the maintenance of roads and trails and the construction and maintenance of all other improvements necessary for the proper and economical administration, protection, development, and use of the national forests, including experimental areas under Forest Service administration: *Provided*, That where, in the opinion of the Secretary of Agriculture, direct purchases will be more economical than construction, improvements may be purchased; the construction, equipment, and maintenance of sanitary, fire preventive, and recreational facilities; control of destructive forest tree diseases and insects; timber cultural operations; development and application of fish and game management plans; propagation and transplanting of plants suitable for planting on semiarid portions of the national forests; estimating and appraising of timber and other resources and development and application of plans for their effective management, sale, and use; examination, classification, surveying, and appraisal of land incident to effecting exchanges authorized by law and of lands within the boundaries of the national forests that may be opened to homestead settlement and entry under the Act of June 11, 1906, and the Act of August 10, 1912 (16 U. S. C. 506-509), as provided by the Act of March 4, 1913 (16 U. S. C. 512); and all expenses necessary for the use, maintenance, improvement, protection, and general administration of the national forests, including lands under contract for purchase or for the acquisition of which condemnation proceedings have been instituted under the Act of March 1, 1911 (16 U. S. C. 521), and the Act of June 7, 1924 (16 U. S. C. 471, 499, 505, 564-570), lands transferred by authority of the Secretary of Agriculture from the Resettlement Administration to the Forest Service, and lands transferred to the Forest Service under authority of the Bankhead-Jones Farm Tenant Act, [\$11,500,000] \$10,986,000: *Provided*, That \$200 of this appropriation shall be available for the expenses of properly caring for the graves of fire fighters buried at Wallace, Idaho; Newport, Washington; and Saint Maries, Idaho: *Provided further*, That in sales of logs, ties, poles, posts, cordwood, pulpwood, and other forest products the amounts made available for schools and roads by the Act of May 23, 1908 (16 U. S. C. 500), and the Act of March 4, 1913 (16 U. S. C. 501), shall be based upon the stumpage value of the timber: *Provided further*, That there is hereby reappropriated for the fiscal year ending June 30, 1941, for the same purpose as originally appropriated any balance of the appropriation "National Forest Protection and Management" contained in the First Deficiency Appropriation Act, fiscal year 1939 (Public, Numbered 7, Seventy-sixth Congress), which remains unobligated on June 30, 1940 (16 U. S. C. 471-562; 54 Stat. 546-547).

Estimate 1942, \$10,986,000

FOREST-FIRE COOPERATION

Forest Fire Cooperation—

For cooperation with the various States or other appropriate agencies in forest-fire prevention and suppression and the protection of timbered and cut-over lands in accordance with the provisions of sections 1, 2, and 3 of the Act entitled "An Act to provide for the protection of forest lands, for the reforestation of denuded areas, for the extension of national forests, and for other purposes, in order to promote continuous production of timber on lands chiefly valuable therefor", approved June 7, 1924, as amended (16 U. S. C. 564-570), including also the study of the effect of tax laws and the investigation of timber insurance as provided in section 3 of said Act, \$2,200,000; \$2,490,000, of which not to exceed \$65,540 shall be available for departmental personal services in the District of Columbia and not to exceed \$2,500 for the purchase of supplies and equipment required for the purposes of said Act in the District of Columbia (54 Stat. 548).

Estimate 1942, \$2,490,000

Appropriated 1941, \$2,200,000

NOTE.—Estimate excludes \$10,000 appropriated under this head for 1941 transferred to and estimated for under "Salaries and expenses, Bureau of Agricultural Economics."

Total, Forest Service, ~~[\$17,924,435]~~ \$18,626,955, of which amount not to exceed ~~[\$61,628]~~ \$56,405 shall be available for the purchase of motor-propelled and horse-drawn passenger-carrying vehicles necessary in the conduct of field work outside the District of Columbia, and in addition thereto there is authorized for expenditure from funds provided for carrying out the provisions of the Federal Highway Act of November 9, 1921 (23 U. S. C. 21, 23), not to exceed ~~[\$9,755]~~ \$10,232 for the purchase of motor-propelled passenger-carrying vehicles for use by the Forest Service in the construction and maintenance of national-forest roads.

Annual appropriations, general account:

Estimate 1942, **\$18,626,955**

Appropriated 1941, **\$18,047,955**

Special accounts:

Payments to States and Territories From the National Forests Fund—

Twenty-five percent of all money received from each forest reserve during any fiscal year is paid at the end thereof by the Secretary of the Treasury to the State or Territory in which the reserve is situated, to be expended as the State or Territorial legislature may prescribe for the benefit of the public schools and public

roads of the county or counties in which the forest reserve is situated. When any forest reserve is in more than one State or Territory, or county, the distributive share to each from the proceeds of the reserve is proportional to its area therein (16 U. S. C. 500).

Estimate 1942, **\$1,432,581** Appropriated 1941, **\$1,200,000**
Revised 1941, **\$1,432,581**

22 Grants to States: Obligations—1942, \$1,432,581; 1941, \$1,432,581; 1940, \$1,192,370.

Payments to School Funds, Arizona and New Mexico, National Forests Fund—

At the close of each fiscal year there is paid by the Secretary of the Treasury to each of these two States, as income for its common-school fund, an amount equivalent to such proportion of the gross proceeds of all the national forests within the State as the area of lands granted to the State for school purposes within these forest reserves may bear to the total area of all national forests within these States (36 Stat. 561).

Estimate 1942, **\$23,392** Appropriated 1941, **\$30,000**
Revised 1941, **\$23,392**

22 Grants to States: Obligations—1942, \$23,392; 1941, \$23,392; 1940, \$23,555.

Roads and Trails for States, National Forests Fund—

An additional 10 per centum of all moneys received from the national forests during each fiscal year is available at the end thereof, to be expended by the Secretary of Agriculture for the construction and maintenance of roads and trails within the national forests in the States from which such proceeds are derived (16 U. S. C. 501).

Cooperative Work, Forest Service—

All moneys received as contributions toward cooperative work in forest investigations, or the protection and improvement of the national forests, including deposits received from timber purchases to cover the cost to the United States of disposing of brush and other debris resulting from cutting operations in sales of national forest timber, are covered into the Treasury and constitute a special fund, which is appropriated and made available until expended, as the Secretary of Agriculture may direct, for the payment of the expenses of the investigations, protection or improvements by the Forest Service, and for refunds to the contributors of amounts paid in by them in excess of their share of the cost of the investigations, protection, or improvements (16 U. S. C. 498; 31 U. S. C. 725s).

Packers and Stockyards Act: For carrying out the provisions of the Packers and Stockyards Act, approved August 15, 1921, as amended by the Act of August 14, 1935 (7 U. S. C. 181-229), \$381,879: *Provided*, That the Secretary of Agriculture may require reasonable bonds from every market agency and dealer, under such rules and regulations as he may prescribe, to secure the performance of their obligations, and whenever, after due notice and hearing, the Secretary finds any registrant is insolvent or has violated any provisions of said Act he may issue an order suspending such registrant for a reasonable specified period. Such order of suspension shall take effect within not less than five days, unless suspended or modified or set aside by the Secretary of Agriculture or a court of competent jurisdiction: *Provided further*, That the Secretary of Agriculture may, whenever necessary, authorize the charging and collection from owners of a reasonable fee for the inspection of brands appearing upon livestock subject to the provisions of the said Act for the purpose of determining the ownership of such livestock: *Provided further*, That such fee shall not be imposed except upon written request made to the Secretary of Agriculture by the Board of Livestock Commissioners, or duly organized livestock association of the States from which such livestock have originated or been shipped to market (7 U. S. C. 231; 54 Stat. 557).

Farm Products Inspections, Agricultural Marketing Service—

Under authority of the Agricultural Appropriation Act, the Secretary of Agriculture provides an inspection and grading service for farm products upon the application of an interested party. This service is supported in part by the appropriation "Salaries and Expenses, Market Inspection of Farm Products", and in part by fees charged for the service. These fees are covered into the Treasury as a special trust fund and are appropriated and made available for the payment of refunds and expenses in connection with the work provided for under cooperative agreements (5 U. S. C. 511, 512; 7 U. S. C. 581-589; 54 Stat. 555).

Soil and moisture conservation and land-use operations, demonstrations, and information: For carrying out preventive measures to conserve soil and moisture, including such special measures as may be necessary to prevent floods and the siltation of reservoirs, and including the improvement of farm irrigation and land drainage, the establishment and operation of erosion nurseries, the making of conservation plans and surveys, and the dissemination of information, **[\$18,965,750] \$18,458,350: Provided,** That any part of this appropriation allocated for the production or procurement of nursery stock by any Federal agency, or funds appropriated to

any Federal agency for allocation to cooperating States for the production or procurement of nursery stock, shall remain available for expenditure for not more than three fiscal years (54 Stat. 560).

Estimate 1942, \$18,458,350 Appropriated 1941, " \$16,705,750

* Excludes \$2,260,000 transferred to "Soil and moisture conservation operations, Department of the Interior," pursuant to the provisions of the Reorganization Act of 1939 and Reorganization Plan No. IV.

NOTE.—Estimate excludes \$86,400 appropriated under this head for 1941 transferred to and estimated for under the following appropriations: "Salaries, office of the Secretary," \$11,400, and "Salaries and expenses, Bureau of Agricultural Economics," \$75,000.

¹ In addition to the amount indicated above for grants to agricultural producers for the 1941 fiscal year an amount of not to exceed \$50,000,000 may be borrowed from the Commodity Credit Corporation in accordance with Pub., No. 716, 76th Cong., approved July 2, 1940. This act provides that such a loan may be made during any fiscal year beginning with the fiscal year 1941 in an amount which will be required during such fiscal year to make crop insurance premium advances and to make advances for conservation materials (grants of aid) in connection with programs applicable to crops harvested in the calendar year in which such fiscal year ends, and to pay administrative expenses of county agricultural conservation associations for the calendar year in which such fiscal year ends.

Under this enactment funds available for "Grants to agricultural producers" for the 1941 fiscal year will be augmented by this loan from the Commodity Credit Corporation. However, in the 1942 and subsequent fiscal years the proceeds of such loans will be offset by the repayment of the loan made during the year immediately preceding.

Conservation and Use of Agricultural Land Resources, Department of Agriculture (New Uses and Markets for Farm Commodities, Regional Laboratories)—

NOTE.—Sec. 202 (a)–(e) of the Agricultural Adjustment Act of 1938 (7 U. S. C. 1292 (a)–1292 (e)), approved Feb. 16, 1938, authorizes and directs the Secretary of Agriculture to establish, equip, and maintain four regional research laboratories, one in each major farm producing area, and, at such laboratories, to conduct researches into and to develop new scientific, chemical, and technical uses and new and extended markets and outlets for farm commodities and products and byproducts thereof; and authorizes the Secretary to utilize for this purpose annually, beginning with the fiscal year 1939, a sum not to exceed \$4,000,000 of the funds appropriated pursuant to sec. 391 of the Agricultural Adjustment Act of 1938 for carrying out the purposes of secs. 7 to 17 of the Soil Conservation and Domestic Allotment Act, as amended, and the Agricultural Adjustment Act of 1938.

¹ In addition to the amount indicated above for grants to agricultural producers for the 1941 fiscal year an amount of not to exceed \$50,000,000 may be borrowed from the Commodity Credit Corporation in accordance with Public, No. 716, 76th Congress, approved July 2, 1940. This act provides that such a loan may be made during any fiscal year beginning with the fiscal year 1941 in an amount which will be required during such fiscal year to make crop insurance premium advances and to make advances for conservation materials (grants of aid) in connection with programs applicable to crops harvested in the calendar year in which such fiscal year ends, and to pay administrative expenses of county agricultural conservation associations for the calendar year in which such fiscal year ends.

Under this enactment funds available for "Grants to agricultural producers" for the 1941 fiscal year will be augmented by this loan from the Commodity Credit Corporation. However, in the 1942 and subsequent fiscal years the proceeds of such loans will be offset by the repayment of the loan made during the year immediately preceding.

Commodity Credit Corporation, Corn Moisture Content Tests, Special Deposits (Agricultural Adjustment Administration)—

NOTE.—This contributed fund is derived from fees collected by the Commodity Credit Corporation, through local Agricultural Conservation Associations. The amounts so collected are deposited to the credit of the Agricultural Adjustment Administration, which has in its field offices in the various States equipment and facilities for making the moisture tests which are final factors in determining grades, and therefore loan eligibility, of the harvested crop offered as collateral security for loans. This fund is used for paying obligations incurred by the Agricultural Adjustment Administration and the local associations in inspecting, sampling, grading, sealing, testing, and other work incident to storing corn and making loans thereon under the commodity loan program.

Special Deposits (12F5831), Agricultural Adjustment Administration (Cotton)—

This fund operates to take care of financial transactions in connection with the acquisition and disposition of spot cotton and cotton futures contracts by the Secretary of Agriculture as provided for by part 1, title I, of the Agricultural Adjustment Act, approved

May 12, 1933, as amended, and the disposition of the proceeds from the sale of such cotton holdings in the following manner:

- The excess of the price at which cotton is sold over 6 cents per pound (price at which the Secretary of Agriculture options cotton to producers) is paid to producers when the sale results from the exercise of an option by producers or is paid to the 1933 Cotton Producers' Pool when the sale is of cotton transferred to the pool by cotton option holders.
- The 1 cent excess of the price at which the Secretary sells cotton to producers by option (6 cents) over the purchase price of cotton from the Farm Credit Administration (5 cents basis price) is used to cover the carrying charges on cotton holdings.

No acreage payments are disbursed from this fund. The following is a statement of the receipts and disbursements from this fund for the period July 25, 1933, to June 30, 1940:

Total disbursements	12,103,704.09
Unexpended balance, June 30, 1940	265,567,917.39

This fund does not depend upon any appropriation for replenishment as the proceeds from the sale of cotton holdings have taken care of the repayment of all advances from United States Treasury and carrying charges and expenses of handling the cotton and will take care of the estimated outstanding claims for payments to producers by virtue of their option contracts.

Receipts and disbursements for this fund henceforth will practically consist of:

- Minor receipts of moneys in course of collection.
- Payments to producers on account of options exercised.
- Final settlement of participation trust certificates purchased.
- Administrative expense.
- Final settlement of claims by General Accounting Office, Claims Division.

All loans from commercial banks were paid on or before July 31, 1935; all advances from U. S. Treasury have been repaid, and are included in repayments of loans from banks and others.

Special Deposits, Cotton Pool, Agricultural Adjustment Administration, A/C 12F5832—

This fund operates to take care of advance of 4 cents per pound on cotton delivered to the cotton pool by holders of cotton option contracts.

This account is now inactive, as 4-cent advances have been practically completed.

The following is a statement of cash receipts and disbursements for the period January 12, 1934, through June 30, 1940.

¹ Since January 1935, funds needed for advances to producers have been transferred from a/c 12F5831.

Special Deposits, Commodity Credit Corporation Loans, Cotton Pool, A/C 12F5833—

This fund operated to take care of second advance of 2 cents per pound to participants in the cotton pool, on participation trust certificates on cotton held by the pool. It was closed on April 30, 1936, by transfer of the residual balance of \$6,623.72 to the fund 12F5831, Special Deposits, Agricultural Adjustment Administration (Cotton). The account was reopened during the fiscal year of 1939, by the deposit of refunds in the amount of \$9.11, and \$53.96 in the fiscal year 1940, making the balance on deposit June 30, 1940, \$63.07.

Special Deposits, Transfer to Cotton Pool, Agricultural Adjustment Administration, A/C 12F5834—

This fund operates to take care of second advances of 2 cents per pound to participants in the cotton pool, on participation trust certificates on cotton held by the pool.

The following is a statement of cash receipts and disbursements for the period May 14, 1935, through June 30, 1940:

DISPOSAL OF SURPLUS COMMODITIES

Exportation and Domestic Consumption of Agricultural Commodities, Department of Agriculture—

To enable the Secretary of Agriculture to further carry out the provisions of section 32, as amended, of the Act entitled "An Act to amend the Agricultural Adjustment Act, and for other purposes", approved August 24, 1935, and subject to all provisions of law relating to the expenditure of funds appropriated by such section, [\$85,000,000] \$100,000,000. Such sum shall be immediately available and shall be in addition to, and not in substitution for, other appropriations made by such section or for the purpose of such section: *Provided*, That not in excess of 25 per centum of the funds herein made available may be devoted to any one agricultural commodity: *Provided further*, That said 25 per centum provision and the like provision in said section 32, as amended, shall not apply to amounts devoted to a stamp plan for the removal of surplus agricultural commodities from funds made available hereby and by said section 32, and, notwithstanding expenditures under such stamp plan, the 25 per centum provision shall continue to be calcu-

lated on the aggregate amount available hereunder and under said section 32 (7 U. S. C. 612c; 54 Stat. 563).

[SEC. 41. There is hereby appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year 1941, the sum of \$50,000,000, to be used by the Secretary of Agriculture for the purpose of effectuating the provisions of section 32 of the Act entitled "An Act to amend the Agricultural Adjustment Act, and for other purposes", approved August 24, 1935, as amended, such sum to be in addition to any funds appropriated by such section 32 and to be subject to all the provisions of law relating to the expenditure of such funds] (54 Stat. 627-628).

Annual appropriation, general account:

Estimate 1942, \$100,000,000 Appropriated 1941, \$134,998,752

* Excludes \$1,248 transferred to "United States official mail and messenger service, Post Office Department (general fund)," pursuant to the provisions of the Reorganization Act of 1939 and Reorganization Plan No. IV.

NOTE.—Estimate excludes \$71,289 appropriated under this title for 1941 transferred to and estimated for under "Salaries and expenses, public buildings and grounds in the District of Columbia, Public Buildings Administration," and \$150,000 appropriated under this title for 1941 transferred to and estimated for under "Salaries and expenses, Bureau of Agricultural Economics." For obligations under this appropriation see consolidated schedule below.

EXPORTATION AND DOMESTIC CONSUMPTION OF AGRICULTURAL COMMODITIES

Exportation and Domestic Consumption of Agricultural Commodities, Department of Agriculture—

NOTE.—Sec. 32 of the act of Aug. 24, 1935 (7 U. S. C. 612c), appropriates for each fiscal year an amount equal to 30 per centum of the gross receipts from duties collected under the customs laws during the period Jan. 1 to Dec. 31, both inclusive, preceding the beginning of each such fiscal year, to be used by the Secretary of Agriculture to (1) encourage the exportation of agricultural commodities and products thereof by the payment of benefits in connection with the exportation thereof or of indemnities for losses incurred in connection with such exportation or by payments to producers in connection with the production of that part of any agricultural commodity required for domestic consumption; (2) encourage the domestic consumption of such commodities or products by diverting them, by the payment of benefits or indemnities or by other means, from the normal channels of trade and commerce; and (3) reestablish farmers' purchasing power by making payments in connection with the normal production of any agricultural commodity for domestic consumption.

SURPLUS MARKETING ADMINISTRATION

NOTE.—This Administration was established in the Department of Agriculture pursuant to the Reorganization Act of 1939 and Reorganization Plan No. III effective June 30, 1940, which consolidated the functions of the Division of Marketing and Marketing Agreements of the Agricultural Adjustment Administration and the functions which the Federal Surplus Commodities Corporation carried out with funds transferred to it pursuant to section 32 of the act approved August 24, 1935 (7 U. S. C. 612c), as amended. In addition to administering the programs of the Department under said section 32, the Surplus Marketing Administration administers the Agricultural Marketing Agreement Act of 1937, as amended. It also performs activities under section 201 of the Agricultural Adjustment Act of 1938.

FEDERAL SURPLUS COMMODITIES CORPORATION

NOTE.—This Corporation was organized under the laws of Delaware as a nonprofit, nonstock, membership corporation and has been continued as an agency of the United States to June 30, 1942, by the Agricultural Adjustment Act of 1938 (52 Stat. 38) for the purpose of facilitating Federal programs for the disposition of surplus commodities. It is financed by loans from Federal agencies for self-liquidating surplus removal projects. The functions of this Corporation which were carried out with funds transferred to it pursuant to section 32 of the act approved August 24, 1935 (7 U. S. C. 612c), as amended, were assumed by the Surplus Marketing Administration June 30, 1940, pursuant to Reorganization Plan No. III.

FARM TENANT ACT

FARM TENANCY

Expenses, Farm Tenancy, Department of Agriculture—

To enable the Secretary of Agriculture to carry into effect the provisions of title I of the Bankhead-Jones Farm Tenant Act, approved July 22, 1937 (7 U. S. C. 1000-1006), as follows:

Salaries and expenses: For [administrative] necessary expenses in connection with the making of loans under title I of the Bankhead-Jones Farm Tenant Act, approved July 22, 1937 (7 U. S. C. 1000-1006), and the collection of moneys due the United States on account of loans heretofore made under the provisions of said Act, including the employment of persons and means in the District of [Columbia,] *Columbia* and elsewhere, exclusive of printing and binding as authorized by said Act, [\$2,500,000] including obligations chargeable against the appropriation for this purpose for the fiscal year 1941, \$2,449,962, together with the unexpended balance [of such part] of the appropriation [made] under [said Act] this head for the fiscal year [1940 (53 Stat. 976) available for such administrative expenses] 1941 (54 Stat. 564).

Estimate 1942, ^a \$2,449,962 Appropriated 1941, ^b \$2,499,962

^a In addition, unexpended balance, if any, of 1941 appropriation reappropriated.

^b Excludes \$38 transferred to "United States official mail and messenger service, Post Office Department (general account)," pursuant to the provisions of the Reorganization Act of 1939 and Reorganization Plan No. IV. In addition, unexpended balances estimated at \$168,514 reappropriated.

NOTE.—Estimate excludes \$50,000 appropriated under this title for 1941 transferred to and estimated for under "Salaries and expenses, Bureau of Agricultural Economics."

Loans: For loans in accordance with title I of the Bankhead-Jones Farm Tenant Act, approved July 22, 1937 (7 U. S. C. 1000-1006), \$50,000,000, which sum shall be borrowed from the Reconstruction Finance Corporation at an interest rate of 3 per centum per annum and which sum shall not be used for making loans under the terms of said Act for the purchase of farms of greater value than the average farm unit of thirty acres and more in the county, parish, or locality in which such purchase may be made, which value shall be determined solely according to statistics of the farm census of 1940 after such statistics become available, but prior to that time may be determined in accordance with such regulations as may be promulgated by the Secretary of Agriculture; and the Reconstruction Finance Corporation is hereby authorized and directed to lend such sum to the Secretary of Agriculture upon the security of any obligations of borrowers from the Secretary under the provisions of title I of the Bankhead-Jones Farm Tenant Act approved July 22, 1937 (7 U. S. C. 1000-1006): *Provided*, That the amount loaned by the Reconstruction Finance Corporation shall not exceed 85 per centum of the principal amount outstanding of the obligations constituting the security therefor: *Provided further*, That the Secretary may utilize proceeds from payments of principal and interest on any loans made under such title I to repay the Reconstruction Finance Corporation the amount borrowed therefrom under the authority of this paragraph: *Provided further*, That the amount of notes, bonds, debentures, and other such obligations which the Reconstruction Finance Corporation is authorized and empowered to issue and to have outstanding at any one time under existing law is hereby increased by an amount sufficient to carry out the provisions hereof (54 Stat. 564-565).

Payments to Counties From Submarginal Land Program, Farm Tenant Act—

Twenty-five percent of the net revenues received each calendar year from the use of lands held by the Secretary of Agriculture under Title III of the Farm Tenant Act, approved July 22, 1937 (7 U. S. C. 1000-1006), is paid to the counties in which the land is located. Such payments to counties are made on the condition that they are used for school or road purposes, or both. When any project is located in more than one county, the distributive share to each from the proceeds of the land is proportional to its area therein (7 U. S. C. 1000-1006).

LOANS, GRANTS, AND RURAL REHABILITATION

Loans, Grants, and Rural Rehabilitation—

[SEC. 2. (a) In order] To enable the Secretary of Agriculture to continue to provide assistance through rural rehabilitation and [relief] grants to needy farmers and [relief] to other needy persons in the United States, its Territories and possessions, [there is hereby appropriated to the Department of Agriculture, out of any money in the Treasury not otherwise appropriated, for the fiscal year ending June 30, 1941, \$59,000,000, together with the balance of the appropriation under section 3 of the Emergency Relief Appropriation Act of 1939 which remains unobligated on June 30, 1940] including (1) farm debt adjustment service, and making and servicing of loans and grants under this and prior law; (2) loans; (3) grants; (4) the prosecution of Federal rural rehabilitation projects under the supervision of the Farm Security Administration on July 1, 1941; (5) projects involving provision of water facilities; and (6) projects involving construction and operation of migratory labor camps, \$66,000,000, together with the unobligated balance of the appropriation under section 2 (a) of the Emergency Relief Appropriation Act, fiscal year 1941, which sum shall be also available for necessary administrative expenses incident to the foregoing, including personal services in the District of Columbia and elsewhere; compensation of experts (including the Administrator and not to exceed three Assistant Administrators of the Farm Security Administration) without regard to the Classification Act of 1923, as amended; purchase of law books, books of reference, periodicals, newspapers, and press clippings; purchase, operation, maintenance, and exchange at the seat of government and elsewhere, of motor-propelled passenger-carrying vehicles; and printing and binding.

Hereafter rural rehabilitation loans shall be subject to the conditions and penalties prescribed by sections 3 and 6 of the Act of January 29, 1937 (50 Stat. 5), except that the functions conferred upon the Governor of the Farm Credit Administration by said sections are hereby conferred, for the purposes hereof, upon the Secretary of Agriculture.

In making any grant payments under this Act, the Secretary of Agriculture is authorized to require with respect to such payments the performance of work on useful public projects, Federal and non-Federal, including work on private or public land in furtherance of the conservation of natural resources, and the provisions of the Act of February 15, 1934 (48 Stat. 351), as amended, relating to disability or death compensation and benefits shall apply to those persons performing such work: Provided, That this section shall not apply to any case coming within the purview of the workmen's compensation law of any State, Territory or possession, or in which the claimant has received or is entitled to receive similar benefits for injury or death.

[(c) In order to furnish the Secretary of Agriculture with] For additional funds for the purpose of making rural rehabilitation loans to needy farmers, the Reconstruction Finance Corporation is authorized and directed, until June 30, [1941] 1942, to make advances to the Secretary of Agriculture upon his request in an aggregate amount of not to exceed \$125,000,000 \$100,000,000. Such advances shall be made: (1) With interest at the rate of 3 per centum per annum payable semiannually; (2) upon the security of obligations acceptable to the Corporation heretofore or hereafter acquired

by the Secretary pursuant to law; (3) in amounts which shall not exceed 75 per centum of the then unpaid principal amount of the obligations securing such advances; and (4) upon such other terms and conditions, and with such maturities, as the Corporation may determine. The Secretary of Agriculture shall pay to the Corporation, currently as received by him, all moneys collected as payments of principal and interest on the loans made from the amounts so advanced, or collected upon any obligations held by the Corporation as security for such advances, until such amounts are fully repaid. The amount of notes, debentures, bonds, or other such obligations which the Corporation is authorized and empowered to issue and to have outstanding at any one time under the provisions of law in force on the date this [subsection] Act takes effect is hereby increased by an amount sufficient to carry out the provisions of this [subsection] paragraph (54 Stat. 614-615).

RURAL ELECTRIFICATION ADMINISTRATION

To enable the Secretary of Agriculture to carry into effect the provisions of the Rural Electrification Act of 1936, approved May 20, 1936, as amended (7 U. S. C. 901-914), as follows:

Salaries and Expenses, Rural Electrification, Department of Agriculture—

Salaries and expenses: For administrative expenses and expenses of studies, investigations, publications, and reports including the salary of the Administrator, Rural Electrification Administration, and other personal services in the District of Columbia and elsewhere; [rentals, including buildings and parts of buildings and garages, in the District of Columbia and elsewhere;] purchase and exchange of books, law books, books of reference, directories, and periodicals; not to exceed [\$200] \$300 for newspapers and press clippings; financial and credit reports; and all other expenses necessary to administer said Act, \$3,075,000, of which amount not to exceed \$1,350 shall be available for the purchase of motor-propelled passenger-carrying vehicles necessary in the conduct of work in the District of Columbia and elsewhere; \$3,946,000: Provided, [That no part of this appropriation shall be used to pay the salary of any person who received as many as three steps of administrative within-grade promotion, or the equivalent thereof, in all positions occupied by such person during the fiscal year 1939, at a rate of pay in excess of the salary resulting from the first two steps of such promotion or its equivalent; but this proviso shall not preclude the payment of the minimum salary of the grade to any person transferred, under standard regulations, to such grade: Provided further, That section 3709 of the Revised Statutes (41 U. S. C. 5) shall not be construed to apply to any purchase or service rendered for the Rural Electrification Administration when the aggregate amount involved does not exceed \$100: Provided further,] That the Secretary of Agriculture may make allotments from this appropriation, subject to the approval of the Director of the Bureau of the Budget, to the offices

and divisions of the Office of the Secretary for the performance of departmental services for the Rural Electrification Administration (5 U. S. C. 511, 512—establishing Department of Agriculture; 7 U. S. C. 901-914—establishing Rural Electrification Administration (the foregoing citations apply to all appropriation items under the Administration); 54 Stat. 566).

Statement of proposed expenditures for purchase, maintenance, repair, and operation of motor-propelled and horse-drawn passenger-carrying vehicles, for the fiscal year ending June 30, 1942, as required by 5 U. S. C. 78

BELTSVILLE RESEARCH CENTER

Appropriation	For purchase				Old vehicles still to be used	Total maintenance, repair, and operation, all cars	Public purpose and users	
	New vehicles (motors unless otherwise indicated)		Old vehicles to be exchanged					Net cost of new cars
	Number	Gross cost	Number	Allowance (estimated)				
Beltsville Research Center					4	\$600	To be used almost exclusively within the confines of the Beltsville Research Center for the purpose of providing necessary supervision of operations conducted in an area embracing approximately 12,400 acres.	

INTERCHANGE OF APPROPRIATIONS

Not to exceed 5 per centum of the foregoing amounts for the miscellaneous expenses of the work of any bureau, division, or office herein provided for shall be available interchangeably for expenditures on the objects included within the general expenses of such bureau, division, or office, but no more than 5 per centum shall be added to any one item of appropriation except in cases of extraordinary emergency (54 Stat. 567).

WORK FOR OTHER DEPARTMENTS

During the fiscal year for which appropriations are herein made the head of any department or independent establishment of the Government requiring inspections, analyses, and tests of food and other products, within the scope of the functions of the Department of Agriculture and which that department is unable to perform within the limits of its appropriations, may, with the approval of the Secretary of Agriculture transfer to the Department of Agriculture for direct expenditure such sums as may be necessary for the performance of such work (54 Stat. 567).

PASSENGER-CARRYING VEHICLES

Within the limitations specified under the several headings the lump-sum appropriations herein made for the Department of Agriculture shall be available for the purchase of motor-propelled and horse-drawn passenger-carrying vehicles necessary in the conduct of the field work of the Department of Agriculture outside the District of Columbia: *Provided*, That such vehicles shall be used only for official service outside the District of Columbia, but this shall not prevent the continued use for official service of motortrucks in the District of Columbia: *Provided further*, That the limitation on expenditures for purchase of passenger-carrying vehicles in the field service shall be interchangeable between the various bureaus and offices of the Department, to such extent as the exigencies of the service may require: *Provided further*, That appropriations contained in this Act shall be available for the maintenance, operation, and repair of motor-propelled and horse-drawn passenger-carrying vehicles: *Provided further*, That the Secretary of Agriculture may exchange motor-propelled and horse-drawn vehicles, tractors, road equipment, and boats, and parts, accessories, tires, or equipment thereof, in whole or in part payment for vehicles, tractors, road equipment, or boats, or parts, accessories, tires, or equipment of such vehicles, tractors, road equipment, or boats purchased by him: *Provided further*, That the funds available to the Agricultural Adjustment Administration may be used during the fiscal year for which appropriations are herein made for the maintenance, repair, and operation of one passenger-carrying vehicle for official purposes in the District of Columbia (5 U. S. C. 77, 78; 54 Stat. 568).

Farmers' Crop Production and Harvesting Loans, Farm Credit Administration, Department of Agriculture—

Farmers' crop production and harvesting loans: For loans to farmers under the Act of January 29, 1937 (50 Stat. 5), as amended

by the [Act] Acts of February 4, 1938 (52 Stat. 26), [and] June 30, 1939 [(Public, No. 159),] (53 Stat. 939), and June 25, 1940 (54 Stat. 569), the unobligated balance (exclusive of the amount of such balance made available for “Salaries and expenses, Farm Credit Administration, [1941] 1942”) of the appropriation “Crop production and harvesting loans” as made in the First Deficiency Appropriation Act, fiscal year 1937 (50 Stat. 8, 11), and as continued available by the [Act] Acts of February 4, 1938 (52 Stat. 26), [and] June 30, 1939 [(Public, No. 159),] (53 Stat. 939), and June 25, 1940 (54 Stat. 569), together with all collections of principal and interest on loans heretofore or hereafter made under said Act of January 29, 1937 (50 Stat. 5): *Provided*, That no employee of the United States on whose certificate or approval loans under said Act of January 29, 1937, as amended, or other acts of the same general character, are or have been made, shall be held personally liable for any loss or deficiency occasioned by the fraud or misrepresentation of applicants or borrowers, if the Governor of the Farm Credit Administration shall determine that such employee has exercised reasonable care in the circumstances, and has complied with the regulations of the Farm Credit Administration in executing such certificate or giving such approval. Notwithstanding any such determination by the Governor of the Farm Credit Administration, this provision shall not be construed to prevent any criminal process against any person who was a party to or had guilty knowledge of such fraud or misrepresentation (54 Stat. 569).

EXPLANATORY STATEMENT

The 12 district banks for cooperatives and the Central Bank for Cooperatives (Washington, D. C.) were organized to make credit available to farmers' cooperative associations on a business basis and were chartered by the Governor of the Farm Credit Administration pursuant to the provisions of the Farm Credit Act of 1933. The banks were organized and began to function in the year 1933. Their charters provide for continued existence until dissolved by law.

The initial capital of the banks was subscribed by the Governor of the Farm Credit Administration from funds available in the revolving fund authorized by the Agricultural Marketing Act.

As of June 30, 1940, the Government's investment in the capital of these banks amounted to \$149,000,000. At

the same time member associations had contributed \$3,384,300 of paid-in capital. In conformity with the provisions of the Budget Message of the President for the fiscal year 1941 the banks will repay \$60,000,000 to the revolving fund in the Treasury. Forty million dollars have already been paid in. The proceeds of such repayments will be held in the Treasury of the United States as a fund available for resubscription if necessary. The banks acquire funds by rediscounting certain of their paper with the intermediate credit banks. The Central Bank for Cooperatives may issue debentures but has never availed itself of the authority.

The receipts, expenditures, and means of financing of these banks are shown in detail in the statement above.

EXPLANATORY STATEMENT

The Commodity Credit Corporation, created under the laws of the State of Delaware pursuant to Executive Order No. 6340, dated October 16, 1933, was organized primarily to make loans to producers to finance the carrying and orderly marketing of agricultural commodities. The act of March 4, 1939, continued the Corporation as an agency of the United States to June 30, 1941, or such earlier date as may be determined by the President. However, Congress has directed the Corporation to continue to perform its functions beyond that date for certain specific purposes.

The Corporation was transferred to the Department of Agriculture by Reorganization Plan No. I, effective July 1, 1939.

The Corporation has a capital stock of \$100,000,000, all of which is held by the United States, and it is authorized, with the approval of the Secretary of the Treasury, to have outstanding at any one time obligations guaranteed by the United States in an aggregate amount of \$1,400,000,000.

In addition to its general discretionary powers to make loans, the Corporation is directed by section 302 of the Agricultural Adjustment Act of 1938, as amended, to make loans upon cotton, wheat, and corn where the market price drops below a certain minimum or the crop estimates exceed normal domestic consumption and exports.

The Secretary of the Treasury is required to make an appraisal of all assets and liabilities of the Corporation as of the 31st of March in each year for the purpose of determining its net worth. In the event the net worth of the Corporation is determined to be less than \$100,000,000, the Secretary of the Treasury, subject to appropriation of funds therefor, is required to restore such capital impairment. In the event the net worth exceeds \$100,000,000, such excess shall be deposited by the Corporation in the Treasury of the United States to the credit of miscellaneous receipts.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Federal Crop Insurance Corporation was organized under the act of February 16, 1938, for the purpose of promoting the national welfare by alleviating the economic distress caused by wheat crop failures due to drought and other causes, by maintaining the purchasing power of farmers, and by providing for stable supplies of wheat for domestic consumption and the orderly flow thereof in interstate commerce.

The Federal Crop Insurance Act provided that the Corporation should have an authorized capital stock of \$100,000,000 to be subscribed by the United States of America.

Under the Department of Agriculture Appropriation Act of 1939, \$20,000,000 was made available to the Secre-

tary of the Treasury for purchase of capital stock of the Corporation. As of June 30, 1940, the Federal Crop Insurance Corporation had requisitioned \$8,000,000 of the capital stock subscribed.

Under the Second Deficiency Appropriation Act, 1940, approved June 27, 1940, an additional \$20,000,000 was made available to the Secretary of the Treasury for purchase of capital stock of the Corporation. The capital stock for this appropriation had not been issued as of June 30, 1940.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Federal Farm Mortgage Corporation was created under the act approved January 31, 1934 (12 U. S. C. 1016-1020 (h)), to aid in financing the lending operations of the Federal land banks and the Land Bank Commissioner. Under the present law Land Bank Commissioner's loans may not be made after June 1, 1942.

The Corporation, which is wholly owned by the United States, is capitalized at \$200,000,000 and is authorized to issue and have outstanding at any one time a total of not more than \$2,000,000,000 of bonds which are fully

and unconditionally guaranteed by the United States Government.

In accordance with the Budget Message of the President for the fiscal year 1941, and the act approved June 25, 1940, \$100,000,000 of the capital of the Corporation will be repaid to the Treasury on or before June 30, 1941. The proceeds of such repayment will be held in the Treasury of the United States as a fund available for additional capital subscriptions if necessary.

The receipts, expenditures, and means of financing the Corporation are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Agricultural Credit Act of 1923 (title II of the Federal Farm Loan Act) provided for the establishment of 12 Federal intermediate credit banks. The 12 banks were chartered by the Federal Farm Loan Board during 1923, their term of existence being unlimited.

The authority for supervision of the various Federal intermediate credit banks was transferred to the Farm Credit Administration on May 27, 1933, in conformity with the provisions of Executive Order No. 6084 of March 27, 1933.

The original capital stock of the Federal intermediate credit banks in the amount of \$5,000,000 each was subscribed and paid for by the Secretary of the Treasury on behalf of the United States. By an act approved January 31, 1934, an additional sum of \$40,000,000 was provided, to be allocated to the capital stock and paid-in surplus of any banks. The aggregate capital stock of the 12 banks at June 30, 1940, was \$70,000,000 and their aggregate paid-in and earned surplus \$50,290,628, all of which is owned by the Government.

These banks have authority, subject to the approval of the Farm Credit Administration, to borrow money from any source and to issue and sell collateral trust debentures or other similar obligations, subject to the general limita-

tion that the aggregate amount of outstanding debentures and similar obligations issued individually by any bank, together with the amount of consolidated debentures issued for its benefit and account, shall not exceed 10 times the surplus and paid-in capital of such bank. As of June 30, 1940, the total debt outstanding was \$210,300,000.

Net earnings of the banks are applied to make up losses in excess of the banks' reserves, the elimination of any impairment of paid-in capital, and the creation of reserves. Thereafter 25 percent of the amount of earnings then remaining is paid to the United States as a franchise tax. In accordance with the Budget Message of the President for the fiscal year 1941, the banks will return to the revolving fund in the Treasury \$40,000,000 of paid-in capital and surplus. The proceeds of such repayments will be held in the Treasury of the United States as a fund available for resubscription if necessary.

The principal function of the Federal intermediate credit banks is to supply funds by way of discounts and loans to lending institutions for short- and intermediate-term agricultural loans.

The receipts, expenditures, and means of financing are shown in detail in the statement above.

EXPLANATORY STATEMENT

Title I of the Farm Credit Act of 1933 authorized and directed the Governor of the Farm Credit Administration to organize and charter 12 production credit corporations, one to be established in each city in which a Federal land bank was located.

The initial capital stock of each corporation was fixed at \$7,500,000 and was subscribed for by the Governor of the Farm Credit Administration on behalf of the United States, as provided in section 4 of the Farm Credit Act of 1933. As of June 30, 1940, the paid-in capital stock of the corporations amounted to \$120,000,000 and their surplus totalled approximately \$2,500,000. Since then, and in conformity with the Budget Message of the President for the fiscal year 1941, the production credit

corporations have paid into a revolving fund in the Treasury \$15,000,000 from their capital. The proceeds of such repayments will be held in the Treasury of the United States as a fund available for resubscription if necessary.

The principal function of the production credit corporations is to provide capital for and supervise local production credit associations which make short-term agricultural loans to their members. At the present time the corporations own about 80 percent of the total outstanding stock of all the associations and the farmer members own the balance.

The receipts, expenditures, and method of financing are shown in detail in the statement above.

EXPLANATORY STATEMENT

By authority granted in section 201 (e) of the Emergency Relief and Construction Act of 1932, approved July 21, 1932, the Reconstruction Finance Corporation created 12 regional agricultural credit corporations to make short-term loans direct to farmers and stockmen in the United States.

The stock of these corporations was subscribed and paid for by the Reconstruction Finance Corporation out of the unexpended balance of the amounts allocated and made available to the Secretary of Agriculture under section 2 of the Reconstruction Finance Corporation acts. All of the stock is now held by the Secretary of the Treasury for and on behalf of the United States. Of the total original capital of \$44,500,000, the corporations have returned to a revolving fund set up under section 84 of the Farm Credit Act of 1933 the sum

of \$39,500,000, leaving outstanding stock in the amount of \$5,000,000.

On May 27, 1933, the functions of the Reconstruction Finance Corporation relating to the affairs of the regional agricultural credit corporations were transferred to the Farm Credit Administration.

Under the authority of the Farm Credit Act of 1937, the Farm Credit Administration has effected the consolidation or merger of various of these corporations so that there are now only five in existence. It is anticipated that only three will be in existence by the fiscal year 1942.

These corporations are in process of liquidation, as short-term credit to agriculture is being made available by other permanent organizations administered by the Farm Credit Administration.

The receipts and expenditures are shown in detail in the foregoing statement.

²⁸ During the fiscal years 1934 and 1935 similar items are included under the various departments and establishments.²⁹ The 1938, 1939, and 1940 expenditures have been adjusted to the basis of the 1940 appropriations which involve numerous transfers and consolidations of appropriations. For this reason the expenditures for these 2 years under the Department of Agriculture are not strictly comparable with those shown for prior years.³⁰ Includes \$17,739,448.73 in 1937 and \$965,044.32 in 1936 for elimination of diseased cattle, formerly carried under "Miscellaneous."³¹ Transferred to Department of Agriculture from independent status by Reorganization Plan No. I, effective July 1, 1939.
